

Getting ready to start your career as a Unibo student!

Information for future EPOS students

Dear student,

Congratulations for your admission to the Bachelor's Degree in Economics, Politics and Social Sciences (EPOS) at the University of Bologna. In this message you will find some useful information for the start of your career as a Unibo student.

The steps required to complete the **enrolment** are described [here](#). After completing enrolment, you will be able to get your student card (aka badge): please find the relevant information [here](#).

The information for the tuition fees for the academic year 2024/25 can be found [here](#). You may qualify for a lower fee depending on your individual financial situation. Please refer to the related links for complete information on tuition fees, payment methods and exemptions.

Students with a non-Italian degree title must complete additional steps to complete enrolment. You will first need to scan all the documents needed to the Student Administration Office for International Students and send the files by email at segstudentbo@unibo.it. Then, once you get to Bologna, you will need to schedule an appointment with such office and hand in the original documents. Only after the validity of the documents has been checked your enrolment will be complete. For more information on documents needed for non-Italian degree titles and procedures for non-EU students, please read the relevant information available on the Unibo website. If you still have doubts you may contact the Tutor for International Students at didatticasociale.tutorinternational@unibo.it.

Classes will start on Monday September 16h and the timetable is available [here](#). In the previous two weeks, starting on September 4th, we will offer a Crash course in Mathematics. Attendance is optional but, given the emphasis in EPOS on quantitative training, it is recommended for all.

We will host a **Welcome Day** for all freshers on September 9th. If you are already in Bologna you would be very welcome to attend. Please wait for more information from us about this.

Your institutional Unibo e-mail firstname.lastname@studio.unibo.it is already active and can be accessed from your SOL profile. We will use it to send all communications from now on. We also warmly recommend you using it and expect you to contact us from there.

For administrative questions regarding EPOS you can contact didatticasocaravilli.epos@unibo.it. You can also contact me, I am the Programme Tutor for EPOS students.

We all look forward to welcoming you to Bologna at the start of our programme.

Best Regards,

Giorgia Zito
Programme Tutor for EPOS
