ETAC website

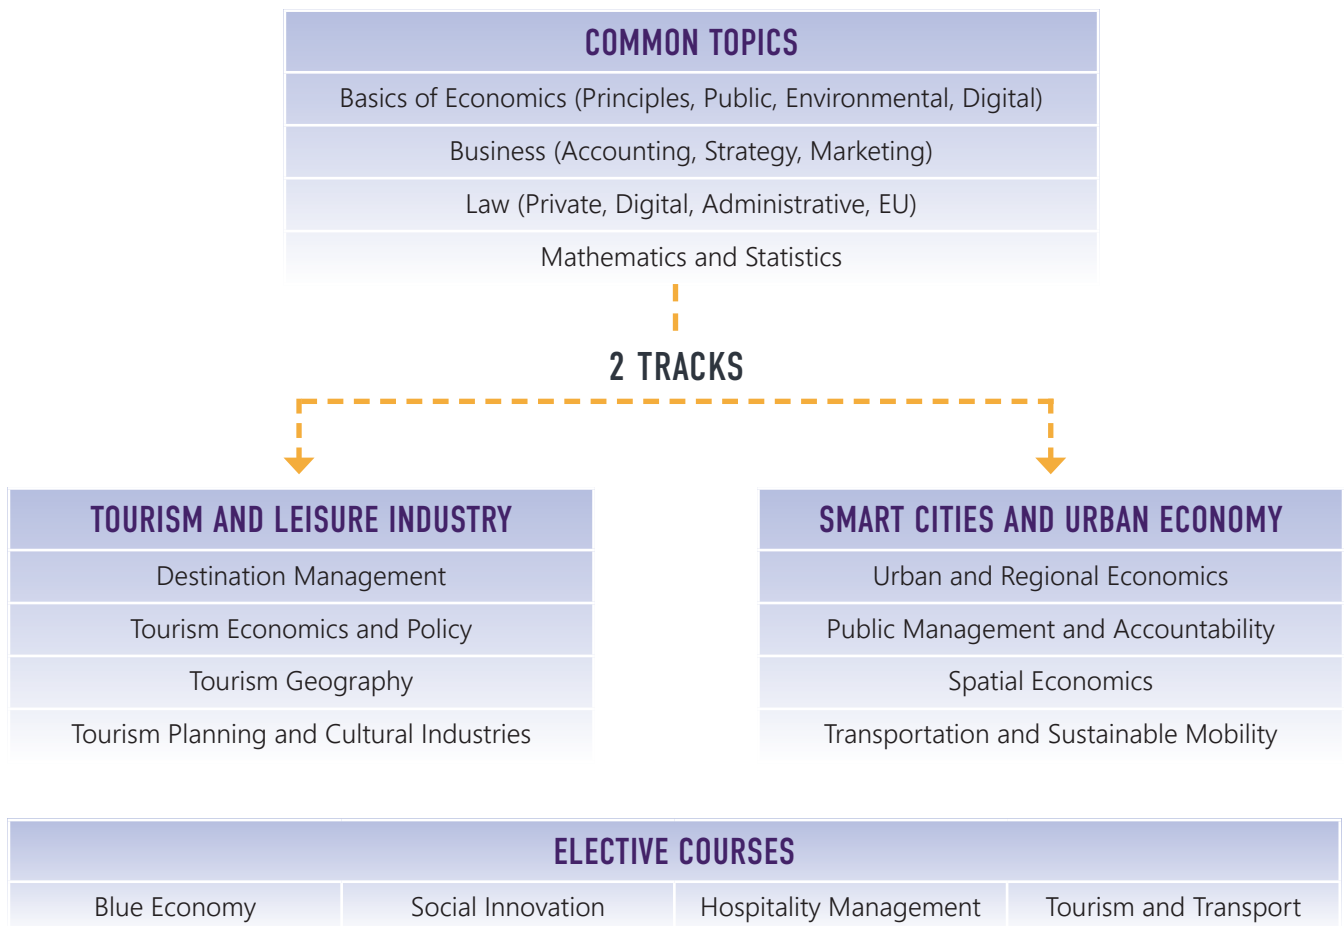

ETAC* is a 3-year BA degree, entirely taught in English, that aims to study the tourism ecosystem and urban landscapes with a strong quantitative and applied approach.

ETAC provides students the **cultural** and **technical** skills required to join, as a manager or professional, private and public enterprises in the **tourism industry** and in **smart cities contexts**.

The rapid evolution of the tourism industry and its interactions with the urban and local environments are today's challenging issues, which require the continuous development of new approaches in terms of **products development, market analyses** and **data management**.

Business culture, sustainability, creativity and technological innovation are now the keywords to create new businesses and conquer an **ever-changing and highly competitive tourism market**.

Course Structure Diagram

Reasons to enrol

- 1. Cutting-edge Curriculum:** Dive into a forward-thinking curriculum that blends economic principles with the latest in sustainable tourism and smart city development.
- 2. Tailored Tracks:** Customize your learning experience with specialized tracks in Tourism and Leisure Industry or Smart Cities and Urban Economy. Develop expertise that aligns with your passion and career goals.
- 3. Local Relevance:** Connect your studies to the rich historical context of Rimini and beyond, a hub for tourism and blue economy. Experience hands-on learning through internships with local businesses and industry leaders.
- 4. Global Perspectives:** Gain insights into international trends, preparing you for a career in a rapidly evolving global landscape.
- 5. Career Opportunities:** Be equipped for diverse career paths, from private enterprises in the travel industry to public roles in tourism planning and smart city initiatives.
