8th IPCE CONFERENCE

**11-12 June
2025**
Verona - Italy

IPCE over the years has established itself as a connecting bridge between the last IFSCC Congress and the following one: in this case Foz du Iguassu and Cannes!

This year too prestigious locations were chosen: in the historic center of Verona, a UNESCO heritage site, also known as the city of Romeo and Juliet, we chose the Mascagni room of the **Hotel Leon D'oro** for the two days of the Conference, and the spectacular **Palazzo Verità Poeta** for the gala evening.

The excellent scientific program will take advantage of the authors of some of the best posters of the **Brazilian IFSCC Congress** belonging both to relevant producers of brands and cosmetic raw materials and to international University Institutes.

Internationally renowned master lecturers, including Dr. Tomonobu Ezure (Shiseido), Dr. Perry Romanowski (IFSCC), Dr. Apostolos Pappas (Intercos), Dr. Giulio Pirotta (SICC) will complete the scientific program, which will be enriched by networking activities and social events, including the opening evening at the Arena Opera Festival 2025 with "Nabucco" by G. Verdi.

We thank the following Companies that up to now, demonstrating their interest in Cosmetic Science as promoter of people's well-being and environmental sustainability, will contribute to make this event "special"!
