

**SOLAR POWER SATELLITE
(SPS)
MOON-sX**

Conceptualized by Elisa Shebaro

Graphics by Carl Lierman © 2015

Looking for a team of committed experts to help realize a Solar Power Satellite concept and re-submit it to NASA call for proposals by July 2017. The goal is to build a prototype by 2019.

Ideally, would like my team to have the following experience:

**Solar Power Satellite Engineer
Communication Satellite Engineer
Thermal Engineer
Material Scientist
Electrical Engineer
Aerospace solar cell Researcher**
