

Students may only take the exam if the relevant course is included in their study plan, and therefore in their degree program. A maximum number of places has been set for students from other University courses (not Economics and Statistics) to include training activities related to the Economics, Management, and Statistical Sciences courses (Bologna campus).

Please check in advance with the Economics and Management Student Office to see how many places are still available, as student requests are fulfilled in order of submission.

From your institutional email address ...@studio.unibo.it, send a request to segecosta@unibo.it to check the availability of places, indicating the exact name of the teaching activity chosen, the corresponding exam code, the number of credits, the degree program in which the exam is active, and its code:

e.g. 37293 - MICROECONOMICS (8 CFU) from the Degree in Economics and Finance (code 6646).

The maximum number of courses that each student can choose is 2.

For the academic year 2025/26, the email must be sent during the periods when the plans are open:

from October 7 to November 7, 2025, for courses whose lessons are held in the first semester;

from February 3 to February 20, 2026 for courses held in the second semester.

E-mails sent outside these terms or requests made by other means cannot be taken into consideration. For **bachelor degree courses**, the maximum number is:

- **5 students** for each course in:

- Business Economics (CLEA);
- Management and Marketing (CLAMM); -

Business and Economics (CLABE) (excluding courses offered at the Buenos Aires campus of the);

- Economics and Finance (CLEF)
- Economics, Politics, and Social Sciences (EPOS)

- **10 students** for each course in the degree program in

Economics, Markets, and Institutions (EMI).

- Statistical Sciences (CLASS) and International Development and Cooperation (SVIC): applications must be approved by the course council in order to be eligible.

For **master's degree courses**, the maximum number is:

- **5 students** for each course in:

- Economics, Consulting, and Professions (CLAMEP)
- Finance, Intermediaries, and Markets (CLAMFIM)
- Quantitative Finance (QF)

• **2 students** for each course in:

- Business Management (CLAMDA)
- Health Economics and Management (EU-HEM)
- Innovation and Organization of Culture and the Arts (GIOCA)
- International Management (IM)
- Economics and Econometrics (LMEC)
- Applied Economics and Markets (LMAEM)
- Economics and Public Policy (LMEPP)

• Statistical Sciences (CLAMSS), Greening Energy Market and Finance (GRENFIN), and Statistics, Economics, and Business (CLAMSEI): applications must be approved by the program council in order to be eligible.
