Preparing the study plan

Preparing the study plan

Instructions for the study plan submission.

For the a.y. 2026/27 students will be able to submit their study plan exclusively in the following time frames:

First period: **5th October 2026 – 6th November 2026**

Second period: **8th February 2027 - 5th March 2027**

WARNING! Last chance to edit without re-enrolling (for second-year students)

[only the choice for the Final Examination can be changed after the deadline writing to: seging@unibo.it]

The study plan can be submitted by students regularly enrolled to the academic year 2026/27.

The study plan must filled out according to the **Course Structure Diagram**, referring to the academic year of the first enrollment.

More information:

<https://corsi.unibo.it/2cycle/ArchitectureCreativePractices/Preparing-the-study-plan>

60749	Internship	2	F		6

MANDATORY COURSES
36 credits
1° semester

2) Final examination (15 CFU)

As part of their final exam, students may choose to carry out practical and research activities within companies/institutions external to Unibo, or within Unibo laboratories. Such preparatory activities may be registered in students' records to specify the type of work carried out., either on a pass/fail basis or with a grade, depending on the cases. Students may therefore choose to carry out their final exam only (Group A) or the final exam + an activity, to be chosen among: internship for the preparation of the final thesis, internship for the preparation abroad of the final thesis, or preparation abroad of the final thesis (Group B).

1.1) Group A (max limit 15 CFU)

		PERIOD (?)	TYPE (?)	CFU (?)
60750	Final Examination	O	E	15

1.2) Group B (max limit 15 CFU)

		PERIOD (?)	TYPE (?)	CFU (?)
84551	Internship Abroad for Preparation of the Final Examination	1	E	12
86296	Internship for Preparation for the Final Examination	1	E	12
84548	Preparation for the Final Examination Abroad	1	E	12
86301	Final Examination	O	E	3

FINAL EXAMINATION
15 credits *Four options*
2° semester

3) Courses freely chosen by the students (12 – 18 CFU)

Choose at least 12 credits. The course board suggests to attend to the following courses:

		PERIOD (?)	TYPE (?)	SSD (?)	CFU (?)
B0801	Religious Cultural Heritage. Comprehension, Care and Valorization - Not available	2	D	CEAR-11/A	6

FREELY CHOSEN COURSES
12 credits *Minimum*
1° and mainly 2° semester

63 credits
1° + 2° semesters

Course Structure Diagram: focus Final Examination

		PERIOD ?	TYPE ?	CFU ?
60750	Final Examination	O	E	15

1.2) GROUP B (MAX LIMIT 15 CFU)

		PERIOD ?	TYPE ?	CFU ?
84551	Internship Abroad for Preparation of the Final Examination	1	E	12
86296	Internship for Preparation for the Final Examination	1	E	12
84548	Preparation for the Final Examination Abroad	1	E	12
86301	Final Examination	O	E	3

FINAL THESIS: 15 credits

4 Options

60750

84551 + 86301

86296 + 86301

84548 + 86301

Freely chosen courses

The courses freely chosen by the students (minimum 12 credits, maximum 18 credits) **can be selected among any edition activated in the Campuses.**

Preparing the study plan

Information on completion and submission of a study plan.

Students are strongly advised to select their elective courses with care, as these may cause delays in their academic progress.

No further administrative procedure is required for electives chosen within the **Architecture and Engineering fields**.

However, if courses are selected from **other disciplines**, **a specific procedure** must be followed.

Check that the course is delivered in the second semester (2026), since the first will be occupied by the two integrated courses with compulsory attendance.

Freely chosen courses

One sample of other available courses **outside** the **Architecture and Engineering fields**:

88270 - BIOGEOGRAPHY AND MACROECOLOGY (Master Degree in Science of Climate (5895)

In order to select this type of electives, students should submit a specific PAPER form to the Student Administration Office as explained below and the submission must be done within the time frames related to the submission of the study plan.

Offline submission (paper form)

Only for students who do not meet any of the requirements listed in point 1 (Architecture and Engineering fields).

Students who do not belong to the categories listed in point 1 will not be able to submit their study plan online.

They will need to complete the form (next slide) available in the “attachments” box on the webpage.

Incomplete forms will be disregarded. Students should therefore make sure to duly fill them in, paying special attention to the section on personal data and contacts (the phone number is especially important if the Student Administration Office needs to get in touch).

For courses offered in Bologna, the completed form should be submitted to the Student Administration Office (Via Marsala 49 - Bologna) by e-mail at the following address: seging@unibo.it.

Hand delivery of the forms is not provided.

In case of issues, students will be contacted directly by the Student Administration Office.

Students need to check that any course change or new choice is consistent with the choices made in their last study plan, if submitted in the previous years (e.g. it is possible to replace a course type F for another course type F and not with a course type A, B, C, or D).

Request for the recognition of university credits for working, extra-curricular, other activities

If you have carried out **a working/extra-curricular activity, or an experience outside the University**, consistent with the Degree Programme learning outcomes, you can ask for the recognition of such activities as curricular internship (internship and/or internship for the preparation of the final examination).

In order to make sure such activity is in line with the learning outcomes of your Programme and will be therefore recognized once completed, it is necessary to inform the Coordinator of your study course, the Head of the Internship Board, your thesis supervisor (internship for the preparation of the final examination) and get a prior approval.

ATTACHMENTS

- Application for recognition
[.pdf 230Kb]
- Declaration of performed activities
[.pdf 107Kb]
- Report on the activities carried out
[.pdf 175Kb]

Recognition of University Credits

If you have carried out **a working/extra-curricular activity, or an experience outside the University**, consistent with the Degree Programme learning outcomes, you can ask for the recognition of such activities.

<https://corsi.unibo.it/2cycle/ArchitectureCreativePractices/recognition-of-work-activities-as-a-curricular-internship>

Activities not included in the UNIBO course catalogue can be recognized as university credits (the credits can therefore count towards completing the required 120) if they comply with the guidelines published on the website, BUT they do not contribute to the GPA since only a pass/fail evaluation is awarded (e.g., workshops).

Recognition of University Credits

<https://corsi.unibo.it/2cycle/ArchitectureCreativePractices/recognition-of-work-activities-as-a-curricular-internship>

On that page, you will find the **Application for Recognition** forms (on the right-hand side), which you need to complete.

Please prepare the necessary documentation as indicated, including evidence of the activities carried out and the confirmation from your former employer/provider of the activity.

If related to internship activities, in addition to these documents, **attach a brief graphic presentation (portfolio)** of the work you carried out during the experiences you intend to have recognized. This will help support your application and provide a clearer picture of your professional contributions.

Please note that the application must be **submitted in hard copy (original version)** to the **Student Administration Office**. The form must include a **€16 revenue stamp (marca da bollo)** affixed in the appropriate space. You can deliver the documents **in person** or **send them by post** to the office in Bologna. Digital copies may be sent in advance by e-mail, but they do **not replace** the obligation to submit the paper originals.
