

Free online courses with extracurricular ECTS credits - NIH

Are you interested in taking courses related to sustainability and sports?

Call for applications NIH Virtual Mobility – Spring Semester (January-June)

- Deadline: **November 1st**
- Language: English

Purpose

NIH – Norwegian school of Sport and Science is partner of the Erasmus+ programme and it offers online courses for the upcoming spring semester (January-June) 2025.

No prior knowledge in the topics are required to take these courses.

The courses are module-based, giving the students the flexibility to decide when to complete each module, within the time-frame of the semester. The home-based exam is planned for the end of the semester. Students can choose the course(s) they wish to complete.

Requirements: students must complete the courses they register for.

The credits of the chosen course(s) will be recognized as extra credits

To express your interest, fill out the following form by October 28, 2024 at 1 pm.

<https://forms.office.com/e/fF3tseMRVJ>
