International mobility programmes: approval, amendments, and recognition of learning activities

General information and administration procedures

INTERNATIONAL MOBILITY PROGRAMMES

Erasmus+ is the European Union's main programme to support education, training, youth, and sport, and comprises all the previous programmes activated in different fields of education (LLP, Youth in Action, Erasmus Mundus, Tempus, Alfa, Adulink and the programme of cooperation with industrialized countries).

The [Erasmus+ Study programme](#) allows students to spend time abroad studying or training (through the [Erasmus+ Traineeship](#)) between three to twelve months at a European institute that signed the Erasmus+ 2021-27 agreement.

[Overseas](#) is the mobility exchange programme that promotes mobility in extra-EU countries and allows students to study at a partner University that has signed a mobility agreement with the University of Bologna. The programme offers students the opportunity to attend courses and, in some specific cases, take part in research for dissertation purposes, attend courses of oriental languages or work as an Italian foreign language assistant.

ADMINISTRATION PROCEDURES

Information regarding the required procedures to approve, modify and get recognition of the activities completed abroad within an international mobility programme are available here:
