2023 EDITION

SPACE DATA FOR THE AGRI-FOOD SECTOR

Give Space to Your Ideas!

The Veneto Region Invites Young Innovators to take part in a Challenge promoted by the Veneto Digital Agenda. The 2023 Edition topic of the challenge is "Space Data for the agri-food sector.

venetostars.com

Challenge

The "Venetostars" initiative aims transforming the Veneto Region agri-food sector. The 2023 edition will be open from 1st February to 5th April to teams made of young inventors aged 18-25 and resident in Europe.

The Venetostars 2023 edition will focus on applying space data to the agri-food sector fulfilling the Veneto region peculiarities. The Veneto Region aims to become a reference point for digital innovation, and an attractive territory for dynamic and enterprising young Europeans.

Ten teams will be selected and invited to Venice in May 2023 to meet stakeholders, practitioners and research centres and 'pitch' in front of a qualified jury at the **Space Meetings Veneto.**

The overall winning team will be again invited and hosted in Veneto for a week to exploit their idea, find potential partners, meet end-users and enjoy the 'land of Venice'!

The winning team will be announced on 17th May during the **Space Meetings Veneto**. The terms of the Challenge are outlined in the participant guide at **www.venetostars.com**

DISCOVER VENETO AREA

Veneto region agri-food sector is characterizes by one of the highest revenues-generator in Europe due principally by the high specialized farming: 77.800ha of vineyards, 22.500ha of orchards, 17.000ha of vegetables and 450.000ha of extensive crops.

The "space-data for the agrifood sector" challenge objective is twofold:

 - Raise participants' awareness on Space Data sources and accessibility;

- exploit innovative ideas that from the Veneto Region Agri-food peculiarities could expand their reach.
