SPACE-DATA
FOR THE
AGRI-FOOD
SECTOR

The "Veneto stars" challenge is looking for teams of passionate, talented **European innovators aged 18 - 25** who have an idea to solve challenges in the **agri-food sector by using space data.**

CHALLENGE TAKE PLACE FROM
01ST FEBRUARY TO 15TH APRIL 2023

CHALLENGE

The "Venetostars" initiative aims transforming the Veneto Region agri-food sector. The 2023 edition is open from 1st February to 5th April to teams made of young inventors aged 18-25 and resident in Europe.

The focus is on applying Space Data to the agri-food sector fulfilling the Veneto region peculiarities. The Veneto Region aims to become a reference point for digital innovation, and an attractive territory for dynamic and enterprising young Europeans.

Ten teams will be selected and invited to Venice in May 2023 to meet stakeholders, practitioners and research centres and 'pitch' in front of a qualified jury at the **Space Meetings Veneto**.

The overall winning team will be again invited and hosted in Veneto for a week to exploit their idea, find potential partners, meet end-users and enjoy the "land of Venice"!

SPACE
MEETINGS
VENETO

The winning team will be announced on 17th May during the **Space Meetings Veneto**. The terms of the Challenge are outlined in the participant guide at venetostars.com
