TRANSLATING THE SCIENCE OF PLACEBO INTO MEDICAL PRACTICE

DECEMBER 13, 2023 | 3 - 4:30 P.M. | UNIVERSITY OF MARYLAND SCHOOL OF NURSING

Don't miss this opportunity to explore cutting-edge research and discoveries that shed light on the enigmatic world of the placebo effect. Join us on a quest to better understand the science of self-healing and harness its remarkable potential in medical practice. This event is a journey into the science of the placebo effect and how it influences treatments.

Presentation by Wayne Jonas, MD, President of the Healing Works Foundation

Wayne Jonas, MD, is a widely published investigator, practicing family physician, and professor of medicine at Georgetown University and at Uniformed Services University of Health Sciences. He now advises national and international organizations on ways to implement evidence-based healing practices in their medical systems.
