- 11.20 Caterina Righini (F.lli Righini spa, Ravenna, Italy)
- 11.35 Closing remarks
- 12.00 WACOMA *Final greetings*

Organized by the **University of Bologna** in collaboration with the **University of Algarve** (Portugal) and the **University of Cadiz** (Spain), the WACOMA Symposium represents the final event of the Erasmus Mundus 2-year educational program in WAtER and COASTAL MAnagement.

Since 2018 Ravenna has welcomed 64 students coming from 36 Countries from all five Continents, supported by EU Grants. After the first semester students traveled to Cadiz and Faro to accomplish the Erasmus Mundus mobility, and then studied at the University of choice among the three during the second year.

WACOMA changed the life of many students, and we are proud to follow their careers. Several Alumni will attend the Symposium, in the audience or as speakers. Students of the cohort 2020-2022, who will graduate on July 12-13, 2022, will contribute to the Symposium with Posters on their Thesis work.

The WACOMA Symposium aims to provide insights on aquatic, environmental and coastal marine sciences, water and coastal hazard and risk mitigation, and climate change impacts on coastal areas. International scientists, Wacoma Associate Partners and Companies that hosted WACOMA students for the internship will share their knowledge. Successful stories will be presented by WACOMA Alumni. Keynote speakers will give inspiring talks on related topics.
