

DEPARTMENT OF BIOLOGICAL, GEOLOGICAL, AND ENVIRONMENTAL SCIENCES

Three Seminars on the Cyanobacterial and Algal Diversity of Egypt

Abdullah A. Saber

Associate Professor of Phycology at the Botany Department, Faculty of Science, Ain Shams University, Egypt

Visiting Scholar at the Department of Biological, Geological and Environmental Sciences—BiGeA, Alma Mater Studiorum—University of Bologna, Italy

**Each Wednesday, 3:00 – 4:00 pm,
29 January to 12 February 2025**

**Aula Ghigi & Aula T, Via S. Giacomo 9,
Bologna**

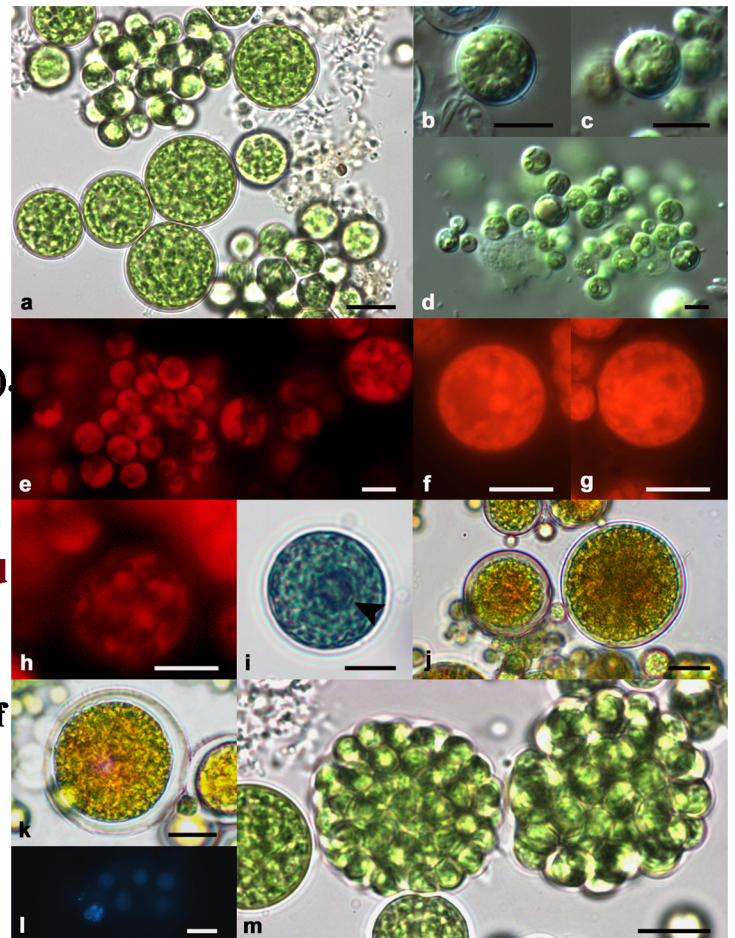

**Seminars organized and chaired
by Prof. Marco Cantonati**

Seminar 1: Green algae and Charophytes (January 29th 2025; Aula Ghigi) [the kind participation of the Cultural Attachée at the Egyptian Embassy in Rome (Prof. Marwa Fawzy) is announced].

Seminar 2: Cyanobacteria (February 5th 2025; Aula T)

Seminar 3: Diatoms (February 12th 2025; Aula Ghigi)

Target audience: BiGeA-UniBO students, from Bachelor to PhD, and, in general, all those interested in algae. Designed for those with general interest, as well as those with more technical backgrounds, this seminar series will provide a unique overview of selected algae and cyanoprokaryotes studied by Prof. Abdullah A. Saber and international collaborators, with a focus on inland waters (springs, wells, saline lakes etc.), desert crusts, and oases.

Pharao desertorum gen. et sp. nov. A.A. Saber, Fučíková, H. McManus, Guella et Cantonati 2018
