

Core Clinical Training (CCT) in Pathology - Organization

Timetable: see planning below. The trainee is required to present at the first day of CCT at 9.30 at the Service of Anatomic Pathology (following the detailed planning published quarterly on the training website or on the webpage of the person in charge of the Training).

Maximum of two absences (7 mandatory days out of a total of 9)

Number of students for round: 10

Type of registration: for out-of-course and Erasmus students directly with email communication to the responsible teacher.

Annual period:

- from January to December, with suspension in July and August.
- Monthly shifts associated with the communicable disease CCT

Organization of the activity:

- Presentation of the CCT, its organization and presentation of activities of the training.
- Two mornings in the dissecting room, with small and large animals for necropsy examinations. Independent execution of necropsy and production of appropriate diagnostic hypotheses (reporting)
- Five half days dedicated to the vision of cytological and histological preparations and of organs with macroscopic lesions, of pre-selected cases including different types of preparations, correction of necropsy reports, discussion of histological / cytological cases, collective vision of preparations received at the diagnostic service.

THE CALENDAR OF THE PERIODS/MONTH WILL BE PUBLISHED PERIODICALLY IN THE TRAINING WEBSITE ON THE PAGE OF THE DEGREE COURSE AND ON THE WEBSITE OF THE PERSON IN CHARGE OF THE CCT.

Planning:

<u>Daytime</u>	<i>Hours</i>	<i>Activity</i>
Day 1	9.30-13.00	Presentation of the structure, the laboratories, the activity
Day 2	9.30-13.00	Dissecting room, with animals for autopsies
Day 3	10.00-13.00	Isolated organ examination
Day 4	10.00-13.00	Guided viewing of histological preparations under the microscope
Day 5	9.30-13.00	Dissecting room, with animals for autopsies
Day 6	10.00-13.00	Guided viewing of histological preparations under the microscope
Day 7	10.00-13.00	Guided viewing of cytological preparations under the microscope
Day 8	10.00-13.00	Presentation and discussion of histopathology cases
Day 9	10.00-13.00	Guided viewing of cytological preparations under the microscope

* *Activities are subject to possible changes depending on the availability of material.*

** *It is possible that, depending on the calendar, the start of the period does not coincide with the Monday. The first day will however be dedicated to the presentation of the structure as indicated in the website calendar.*

Assessment and recording:

- The assessment will be carried out daily at the end of the activity through the verification of the acquisition of skills
- The acquired eligibility is recorded after agreement with the teacher in charge for recording the module (Prof.ssa Barbara Bacci)
