

This teaching module provides the following elements, which are useful for achieving **EAEVE Day One Competences**

**1.6 Implement principles of effective interpersonal interaction, including communication, leadership, management, team working, mutual respect and other soft skills.**

**1.9 Be able to review and evaluate literature and presentations critically.**

**1.10 Understand and apply principles of One Health to ensure veterinary Good Clinical Practice, and research-based and evidence-based veterinary medicine.**

**1.18 Perform a complete clinical examination and demonstrate ability in clinical decision-making.**

The student is able to correctly and autonomously perform a general physical examination in a dog or a cat

The student is able to correctly and autonomously perform the examination of a specific body system, including respiratory, gastroenteric, cardiocirculatory, uro-nephrologic, neurologic, dermatologic, orthopaedic and reproductive system

The student is able to draw up a problem list, prioritize the problems, and know the main differential diagnoses of the more common problems

The student, after having listed the differential diagnoses of each problem, is able to hypothesize the main diseases that may justify the main clinical signs

On the basis of the main differential diagnoses, the student is able to propose a diagnostic protocol aimed at confirming or excluding the differential diagnoses

The student is able to report correctly the results of the physical examination in the medical record of the patient
